DETAILED ACTION

Response to Amendment

The applicant's amendment dated 10-24-2004 overcomes the examiner's prior art rejection. **Hence, claims 3-4 and 7-13 are allowed.**

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The applicant has amended per the examiner's recommendation. The examiner believes the claims to be novel, in his opinion, based on the highly specific design(s) put forth by the claims.

2. Claim 13, appears to be the broadest claim and the prior art cited does not teach the following novel limitations:

A charging-related message for a cellular radio network including a plurality of cells, each cell having a cell identity, and configured to support circuit-switched and packet-switched connections with a mobile station, wherein the charging-related message includes at least one detail item for substantially each event that affects charging of a subscriber of the mobile station and, for substantially each detail item,

the charging-related message is configured to at least indirectly indicate whether the mobile station was in one of its corresponding special cells when the corresponding event occurred.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. D'Agosta whose telephone number is 703-306-5426. The examiner can normally be reached on M-F, 8am to 5pm.
